

## INTELLIGENT VIDEO CAMERA SYSTEM

PanaCast delivers a naturally immersive experience with systems that sense and adapt in real time to our needs. Everything we do is aimed at creating a more symbiotic relationship with technology that is as human as virtually possible.

**Brilliant Video.  
Serious Intelligence.**

## See What They Say

So much of how we communicate is translated through body language. PanaCast is built from a desire to create a video conferencing experience that goes beyond talking heads, and mimics what the human eye does, making it possible to let you be there from anywhere.

## Features & Benefits

### Ultra-wide 180° field of view

Three cameras working as one, capturing the full view of the room in real-time, with 100% room coverage and intelligent sensing.

### Panoramic-4K video

Supports up to 3840 x 1080 resolution, seeing fine details with a high quality immersive video as clear as possible.

### Natural perspective

Stitches three HD camera feeds together in real-time so you see a natural view without any scaling distortion.

### Built-in HD stereo audio

Two high-quality microphones so you can meet without disruptions, for communication that is as clear as possible.

### USB Plug-and-Play

Easily connects to PCs or Macs, works with any popular collaboration services with no additional drivers or software required.

### Intelligence enabled

Captures 100% of the room, enabling the full benefits of artificial intelligence.

### Advances with you

Firmware updates that don't just fix bugs, but also allow for regular improvements and new feature releases.

### Open API

Allows developers to query people count data from PanaCast camera systems and go beyond video conferencing.

# PANACAST

**PanaCast 2** is the world's first Panoramic-4K Plug-and-Play USB video camera that delivers a natural human perspective through an ultra-wide 180° wide field of view. The PanaCast 2 camera system transforms how we see and connect electronically. It lets you add the natural human field of view to your meetings and gatherings with a simple Plug-and-Play device.

## SPECIFICATIONS
